

Company Profile

Who we are

Wakefield Steel is a company full of experience with over 40 years of accumulated knowledge. Though we only established in 2017, as a level 2 BBBEEE, we have grown tremendously and expanded in extraordinary ways.

All the individuals which make up the Wakefield Steel team are highly skilled and have together for some 20 to 30 years.

We Are All About Rebar

Rebar, collectively known as reinforcing steel and reinforcement steel, is a steel bar or mesh of steel wires used as a tension device in reinforced concrete and reinforced masonry structures to strengthen and hold the concrete in compression.

Wakefield Steel Mission

To provide the best work and service humanly possible to each and every client.

Our Partners

Being specialists in reinforced steel we strive to offer the best quality products and service.

Through our partnerships we were able to gain the benefits of a large organisation while retaining atmosphere and heart of a small business.
